

Fly Tying Recipes

LiteBright Serendipity

LiteBright Serendipity

Hook: Tiemco 2457, sizes 12 - 18

Thread: Uni-thread 8/0, tan

Abdomen: Olive Z-Lon, twisted

Thorax: Dubbed Pearlescent LiteBright and Sparkle Hare's Mask

Head: Silver bead

Tying Tips

- In smaller sizes, remove some Z-lon fibers before twisting into a cord and wrapping the abdomen
- The thorax in the above photo was tied using a dubbing loop. If you are in a hurry, simply loosely dub the thorax (without the dubbing loop) and pick out the fibers with a bodkin.

Fishing Tips

- Very consistent and effective pattern that seems to work everywhere
 - Use the LiteBright Serendipity to imitate caddis pupa/larva
-
