

Zelon Midge

Materials

Hook:	Dai Riki 125 or TMC 2488 #18 – 24
Thread:	6/0 Danville brown
Trailing shuck:	Midge gray straight zelon
Body:	Thread
Wing:	Midge gray straight zelon
Thorax:	Midge black zelon dubbing

Directions:

1. Split zelon hank into 1/3 and 2/3 sections.
2. Use 1/3 section for tail.
3. Tie in tail around thorax area and wind thread down hook bend. Cut zelon about hook gap in length.
4. Wind thread forward to 2/3 mark. Thread forms the body.
5. Use remaining 2/3 section for wing. Tie in perpendicular to hook with figure 8 wraps.
6. Dub thorax.
7. Pull wing back and trim the length of body.
